

VOLUNTEERS NEEDED

We are looking for healthy individuals who:

- are 50 - 80 years old;
- are **not** taking any prescribed medications;
- are **not** diagnosed with or being treated for a known disease.

What is the study about?

This study is investigating the metabolite profile of healthy individuals compared to those with peripheral artery disease.

Where?

I.H. Asper Clinical Research Institute at St. Boniface Hospital

What do I have to do?

- Attend a screening visit (~1 hour) to determine eligibility.
- Attend a second visit (~15 min) to provide a fasting blood sample and a urine sample.

How do I get involved?

To be a part of this study, please call or email us at:
Phone: 204-258-1207
Email: studyinfo@sbrc.ca

You will receive an honorarium for your participation.
